Hey,

That would be great if you could pull together some of the draft language. Thanks! Also, Tina Laidlaw is coming along as well since she's been so involved in the criteria/variance development.

Subject: Nutrient Variance Language

Hi Lisa-

I wanted to touch base and see if you needed any draft language from the few permits that include nutrient variance prior to the meeting tomorrow? Also, we have a letter and a form for requesting the variance.

Thanks!
